### Quotes from *Laudato Si'*

- 'Because all creatures are connected, each must be cherished with love and respect, for all of us as living creatures are dependent on one another' (#42).
- 'Our insistence that each human being is an image of God should not make us overlook the fact that each creature has its own purpose. None is superfluous. The entire material universe speaks of God's love, his boundless affection for us. Soil, water, mountains: everything is, as it were, a caress of God' (#84).
- 'When we fail to acknowledge as part of reality the worth of a poor person, a human embryo, a person with disabilities - to offer just a few examples - it becomes difficult to hear the cry of nature itself; everything is connected' (#117).
- 'The universe unfolds in God, who fills it completely. Hence, there is a mystical meaning to be found in a leaf, in a mountain trail, in a dewdrop, in a poor person's face. The ideal is not only to pass from the exterior to the interior to discover the action of God in the soul, but also to discover God in all things' (#233).

### Known by God

And only where God is seen does life truly begin.

Only when we meet the living God in Christ do we know what life is.

We are not some casual and meaningless product of evolution.

Each of us is the result of a thought of God.

Each of us is willed, each of us is loved,

each of us is necessary.

There is nothing more beautiful than to be surprised by the Gospel, by the encounter with Christ.

There is nothing more beautiful than to know him

and to speak to others of our friendship with him.

*Pope Benedict.*
